

Ontario Genomics

Position: General Accountant - Part-time (2 days/wk)

About Ontario Genomics:

Ontario Genomics is a not-for-profit organization funded by the Ontario government and the federal research funding agency Genome Canada. We are the only entity in Ontario focused solely on enabling genomics innovation.

Ontario Genomics fulfills its strategic mandate by engaging a roster of highly-trained experts to evaluate, grow, fund and partner genomics innovation across seven key sectors—agriculture, bioproducts, energy, forestry, health, mining & water. We source & engage with high-potential applied genomics research aimed at enhancing industrial priorities; We secure federal, provincial and private investment funds; and We accelerate innovation, providing guidance, support, and hands-on mentorship to grow ideas and partnerships into strong, scalable and successful companies.

To achieve this, we engage and work closely with four key stakeholders:

- Researchers and scientists to help them develop competitive proposals, access funding, and strike industry partnerships to foster collaboration and develop commercially-oriented projects;
- Companies to provide essential support services to boost productivity such as connections with academic experts, design and planning of collaborative proof-of-concept projects, and access to funding / financing to de-risk technology development and adoption;
- Genomics start-ups to help secure financing and connections, facilitate follow-on investments and take the next best steps towards business growth;
- Government and other decision makers to catalyze the development of genomics-enabling policies, practices and funding opportunities.

Our vision:

- More funding for genomics research in Ontario.
- Established companies improving their bottom line with the use of genomics technologies.
- Genomics-focused start-ups maturing to create jobs and wealth.
- Genomics contributing to the establishment of effective and cost-conscious public services such as healthcare.
