August 2025

On behalf of the Government of Ontario, I would like to congratulate Ontario Genomics on the publication of its 25th Anniversary Edition Annual Report.

This milestone marks a quarter-century of groundbreaking genomics research and innovation that has positioned Ontario as a global leader in the health, agrifood and environmental sectors. Our government has proudly supported Ontario Genomics by investing over \$20 million in their operations since 2018.

Every day, Ontario's innovators in biotech and life sciences, particularly in genomics solutions, are driving our economy, supporting job creation, and improving the lives of people across the province. Since 2000, Ontario Genomics has played a vital role in this progress – catalyzing nearly 400 research projects, building more than 600 partnerships and supporting innovations that have led to more than 300 patents and counting.

Our government is proud to support Ontario Genomics' homegrown innovation that builds a stronger, healthier, more prosperous province.

Congratulations once again on this remarkable milestone and thank you for the incredible work you do for Ontario. We look forward to a continued partnership.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Nolan Quinn'.

The Honourable Nolan Quinn
Minister of Colleges, Universities, Research Excellence and Security
